CASE STUDY

Cerdon College

PROJECT:

Campus seating replacement

CLIENT:

Cerdon College

SCOPE OF WORKS:

Custom manufacture 16 standard picnic settings, 4 quad picnic settings, & 2 1800 park seats all in a custom colour - Woodland Grey

Safety is a priority at Cerdon College, so when the old picnic settings and bench seats started to show signs of wear and tear and rust, the time had come for an investment in some new robust and low maintenance and sustainable outdoor furniture.

After researching a number of options, Christina Posavec the college's trusty financial controller located Park Furniture Australia. Initially, she had not heard of the company before but she liked the look of the product and decided to connect. Her initial hesitancy of choosing a new supplier for the college was soon quashed by the customer service that the team at Park Furniture displayed as well as the speed of their response. So great product, great customer service and speedy response times.

Christina stated "It took a little time to get the project underway from our end, but the Park Furniture Australia team were patient with me and answered all of my questions, especially about the colours."

The school has a specific set of colours that they wanted the furniture to match. Park Furniture Australia have 5 key slat colours to choose from and an ability to completely customise the powdercoat colour of the frames and feet. The Park Furniture Australia team were able to match their "Woodland Grey" colour scheme exactly. "They look so good and are much cleaner and nicer than what we had in place before" said Christina. "We really like the fact that they are low maintenance, so do our groundskeepers".

The 20 Picnic Settings and 2 Bench Seats were delivered flat packed but with explicit instructions on assembly. The team at Park Furniture Australia are conscious that most clients will not have a forklift or way to unload trucks and so they arranged all of the right transport options and helped to deliver the packs to our grounds team with absolutely no issues. Then the grounds team easily assembled the settings. "I was really grateful for their extra efforts in making this part as smooth as possible, so were the grounds team"

The College is really happy with the final results, the seats are very comfortable, really strong and we don't need to do a lot to keep them looking brand spanking new. Park Furniture Australia overmet our expectations and we are extremely happy with the outcome.

We have already requested another quote for some more outdoor furniture around the college and we now see Park Furniture Australia as our "go-to" team for great quality affordable and durable furniture.

Cerdon College happily endorses the Park Furniture Australia brand and their customer service.

"...we now see Park Furniture Australia as our go-to team for great quality affordable and durable furniture."
