PFA208D
Daisy Hill double

The Daisy Hill setting is a simple yet strong design that blends seamlessly into any environment, from busy schoolyards to coastal parks. Now featuring two slats per seat, this updated version offers extra seating width for added comfort — ideal for all day public use.

Built from lightweight, marine-grade aluminium, it's tough enough to handle Australia's harshest climates, including salty coastal air. Its solid construction ensures long term stability, whether installed on concrete, pavers, or fixed into the ground.

A timeless bench setting that adds functionality and a modern touch to any outdoor space.
